Reiki Masters all over the world use Reiki Evolution manuals and CDs

Reiki Masters all over the world use Reiki Evolution manuals and CDs

Many Reiki Master teachers are using Reiki Evolution professionally-printed course manuals and CDs for their Reiki courses.

In this ezine I'd like to introduce you to Jenny Domerecki, a Reiki Master/ Teacher based in Hertfordshire who teaches Reiki at all levels.

She uses Reiki Evolution course manuals and audio CDs for her courses.

This is what she had to say:

"I became a Reiki Master Teacher in 2005, started teaching in 2008 and since then have trained around 60 people in Reiki 1, 2 and Masters. To begin with I did consider writing my own manuals, but found those provided by Taggart to be so professional looking and full of information that I wondered why I would try to re-invent the wheel!

I always get really positive feedback from my students, who are always impressed by the depth of information provided. To me, one of the big advantages of the level of detail contained in the manuals is that they act not only as a useful reminder of what we cover on the day of the course, but also information that people can dip into and learn more about Reiki in their own time after their course.

Delivery is always quick and I think the manuals provide really good value for money. I can definitely recommend to anyone!"
