Carry around a whole REIKI LEARNING LIBRARY on MP3 [a Reiki eZine from Reiki Evolution]

Like sitting in on your Reiki course and hearing your teacher again

When you go on a Reiki course, your teacher tells you a lot of things, don't they? There's no way you could remember all the nuggets of info they impart, the advice, the practical tips. There's a lot to take in and half the time you're a bit zonked out on the energy, anyway, what with the attunements you're receiving.

It can all be a bit of a blur.

So I decided to do something about that, by recording everything that I would say on a live Reiki course and making it available on audio CD and as MP3 tracks.

That way, my students can replay their Reiki course as many times as they like. And often they find that when they listen again they notice things they didn't pick up on to begin with.

It's a powerful way of learning about Reiki, embedding the main points, or recapping after some time away from Reiki.

And I'm happy to share these recordings with you.

MP3s for First and Second Degree

My 'commentary' Reiki MP3s provide you with everything you need to hear to know what to do and to feel comfortable using Reiki for yourself and for other people.

So, for example, listen to the First Degree MP3s and it will be just like you were sitting in on a Beginner's Reiki course with me. Find out all about Reiki: what it is, where it comes from and what it can do for you. Hear about the Reiki precepts and Mindfulness, and discover how to use Reiki for yourself and to help the people around you.

The First Degree collection lasts for over an hour and complements the First Degree manual perfectly.
