"Five Element Reiki" - What You Need To Know

Five Element Reiki

Home Study Course

Hey,

With the launch of my "Five Element Reiki" home study course just around the corner, I wanted to take some time to answer some common questions about this unique healing system and the course itself. Whether you're fairly new to Reiki or a seasoned practitioner or Master, I hope this email will help you better understand the course and what you can expect.

Frequently Asked Questions

Q: What is Five Element Reiki?

A: Five Element Reiki is a system of energy healing that combines the traditional principles of Reiki with the ancient Chinese philosophy of the Five Elements. This unique approach to Reiki has received glowing reviews from students who have taken the Five Element Reiki course, and many have reported experiencing significant benefits both personally and professionally as a result of learning this system.

Q: What are the Five Elements?

A: The Five Elements - Wood, Fire, Earth, Metal, and Water - are a framework for understanding and balancing energy in the body. Each element represents a different aspect of energy and its relationship to the natural world. In the body, each element has an associated mental state, emotion, meridian, physical organs and other body parts. It is an elegant and perceptive paradigm for understanding how apparently unrelated personal challenges make perfect sense from an energetic perspective.

Q: Do I need any prior experience with Reiki to take this course?

A: Yes, you need to be at Second Degree or above. You need to be comfortable with treating people, you need to be comfortable with working intuitively to a degree (for example, by using the Reiji ho approach). And if you are going to enrol on the course, you will need a number of people to hand to practise on. You will be doing a *lot* of practical energy work: meditations, treatments, self-treatments, intuitive exercises. This is a very practical course.

Q: How long is the course?

A: The course is self-paced, and you can take as much time as you need to complete it. However, the course is framed in terms of taking about 12 weeks to complete. We are not going to clock-watch, though, and you can proceed at a more leisurely pace if that suits you better. It is a good idea not to rush. It's not a race. Your place on the course will last for 12 months and if you take longer than that then you would need to re-enrol.

Q: What materials are included in the course?

A: The course includes a downloadable 290-page course book "Five Element Reiki: A Unique & Powerful Healing System for All Reiki Practitioners" and downloadable course instructions that take you by the hand and lead you stage by stage through the different exercises and approaches and systems that you will be exploring during your course.

I hope this Q&A has answered some of your questions about the "Five Element Reiki" course. If you have any other questions or concerns, please don't hesitate to reach out. I'm here to support you and help you achieve your Reiki goals.

Thank you for your interest in my course, and I can't wait to share my knowledge with you.

Pre-launch bookings are still open!

Don't miss out on this opportunity to learn from an experienced and dedicated teacher (me!). Enrol on the "Five Element Reiki" course today and see for yourself what all the fuss is about!

If you enrol now, in the pre-launch period, you receive a £50 discount and an additional eBook.

And I am limiting the number of people that I work with.
