NEW BOOK: A Reiki Symbol Masterclass Unconventional Approaches to Symbol Mastery

BEWARE: REIKI HERESIES ARE IN THIS BOOK!

This is a small book but if you work through the exercises and meditations contained within it, you will gain a deep, deep understanding of the use of symbols within Reiki and you will have learned things that are not taught on the vast majority of Reiki courses. What you have here is a complete and unique approach, a powerful, freeing and inspiring system for using, creating and experiencing the energies.

This book contains ideas about symbols and Reiki that you could almost regard as Reiki 'heresies'. You will learn that:

- Any symbol will frame the Reiki energy without you having to have been 'attuned' to that symbol
- Mikao Usui never attuned anyone to anything and most of his students did not even use symbols

By working through the exercises in this book, you will be able to:

1. Experience that characteristic energy of any symbol by using special symbol meditations
2. Create bespoke symbols that you can use to enhance your self-treatments
3. Learn the three questions that you can use to create bespoke symbols for each person you treat, and understand why you would want to
4. Understand how to create bespoke symbols that can elicit specific states within you, effortlessly

This is not standard Reiki. This goes far beyond the use of symbols within the world of Reiki, and you will be amazed by

what you can achieve.
