I wondered why I hadn't heard from anyone after my post Sunday. For those of you that tried to hit reply, I thank you for trying, and I am sorry for the frustration I may have caused you.

Ezine helped me out, so now hopefully when you reply to this, I will receive your message.

So, please do give me your ideas for Wellness Tips! What health issues are you struggling with? What do you want to know more about? Hit reply and let me know. I will read everything you write me, I promise. I am looking forward to feeling inspired!

Thanks in advance,

Vreni Gurd
